

FRICION STIR WELDING CONGRESS 2020

FRICION STIR WELDING CONGRESS 2020 in Milan, Italy

Organised by

FANUC

ENDORSEMENT

with presence of

MEDIAPARTNER

Thursday, February 13th

The first International Congress about Friction Stir Welding in Italy.

Friction Stir Welding is a leading edge process for soldering developed in 1991 but is still not known by the majority of companies and welding professionals.

You will have the possibility to test the new solution of Friction Stir Welding applied to a FANUC Robot and take part to a practical demonstration session inside our Showroom.

- 09:00 Participants registration & welcome coffee
- 10:00 Welcome speech *M. Ghirardello, Fanuc Italia*
- 10:10 Friction Stir Welding: fundamentals and advantages
A. Squillace, University of Naples Federico II
- 10:40 Hybrid joints and tailored structures
L. Fratini, University of Palermo
- 11:10 Friction Stir Welding and process variants: an overview on main industrial applications *J. dos Santos, Helmholtz-Zentrum Geesthacht GmbH*
- 11:40 Friction Stir Welding in Manned Space Operations Business: an Italian excellence
T. Pegorin, Thales Alenia Aerospace
- 12:20 QUESTION TIME
- 13:00 *Business Lunch in Hanami Canteen*
- 14:00 STIRROB FSW by FPT: The Green Industrial Welding Solution for Light Material Manufacturing - *R. Piliego, FPT Industrie*
- 14:20 Robotic Friction Stir Welding Demo sessions in FANUC Showroom on FPT Industrie STIRROB Cell
- 16:00 Salutation

Don't miss this unique opportunity to participate at the first International Congress about Friction Stir Welding in Italy.
